Craig,

Thanks for your response. We have been working with the CDPHE directly. I was hoping to set up communications so that we can get updates, lab results, etc. directly from the EPA, as opposed to getting info from the Durango Herald. We tested the Animas for heavy metals about 4 weeks ago, I would be willing to share those results if you need a comparison.

Thanks

Daniel,  
Please contact me so I can find out what you mean by "work with EPA directly." I'm EPA's incident commander. Thanks.
